2. DO NOT label supplies with student's name. Supplies get collected at the beginning of the year and are distributed on the first day of school.

Dear Incoming Second Graders and Families,

Welcome to second grade! We hope that you have an enjoyable summer, and we can't wait to meet you in the fall! Research shows that students who continue reading during the summer do not show as much loss moving from year to year. For our summer reading requirement, students are required to read 8 books of their choosing. Please use this attached reading log to record all books read throughout the summer. Parents need to sign each logged book.

It is our hope that this will be a fun summer reading project as students are able to read what most interests them. Please discuss with your child each book that they read to ensure comprehension.

In second grade, students are expected to be fluent in addition and subtraction facts to 20. To begin the school year best prepared, please work with your student this summer on math facts. You can use technology, flash cards, or any method of your choosing for practice. In August, we begin the year working on this skill.

We wish you a happy, safe, and blessed summer. We are so excited to have a wonderful year with you.
